Thank you so much for reaching out! That is our after hours number to Alliance Medical Services. They are the contracted provider to provide 24/7 assistance but that is not our main number.

You bring up such a great point. I'll talk to someone to see if we can make the distinction online.

Our regular office number M-F 8am-4pm is 814-536-5388. If someone calls that number after hours, then they will get a voicemail that offers them the 24/7 number
